

Reference information

Lubensky Dairy Plant LLC is one of the largest milk processing enterprises of the Poltava region, a regional leader in the production of dairy, sour-milk products, butter and ice cream under the Harmoniya trademark with a history of success spanning over 80 years. The construction of the dairy plant began back in 1937. During more than 80 years of activity, the enterprise does not betray the main traditional canons of food production: taste, quality, naturalness.

The location of the plant's facilities is the picturesque city of Lubny, the green pearl of the Poltava Region, an ecologically clean region.

The products are produced under the trademark "Harmony" - a well-known brand among Ukrainian consumers. The product range includes 100 items, including butter and ice cream.

The branched logistics network of trademark "Harmony" covers 7 regions of Ukraine.

PRODUCT

Harmony dairy products are classically traditional food essential products. Our strong point is our location in an ecologically clean region of the Poltava area. Technologists of the plant make maximum efforts to preserve the recipe and maintain the status of a natural milk brand from an ecological area.

The product is developed by women with an understanding of women's needs.

They, like no one else, know how important it is to save all the useful components in the product. We do not seek to fill the shelves with a wide range, our business strategy is not wider, but deeper and better quality.

We are like a Japanese blacksmith who made one sword in his life, but it was perfect. We are as good as dairy products should be.

CERTIFICATION

Lubensky Dairy Plant LLC was one of the first among Ukrainian milk recycling enterprises to develop and provide an integrated food product quality and safety management system that meets the requirements of ISO 9001 and ISO 2200 standards.

HACCP Food Safety System.

Compliance with the requirements of "HALAL" and "KOSHER" standards.

The company is confidently strengthening its position in the domestic market, expanding sales territories, and exports its products to leading countries in the world, including: Georgia, Turkey, Azerbaijan, UAE, Saudi Arabia, South Korea, Morocco, Tunisia, Algeria, Oman, Qatar.
